MANAGEMENT SYSTEM

COMPREHENSIVE HOSPITAL MANAGEMENT SYSTEM

Medix is a **powerful, flexible** and **easy to use** Hospital Management System by Lakson Business Solutions Limited that is designed to help hospitals automate and manage its information and records in a structured and systematic way. It is designed and developed to deliver real conceivable benefits to hospitals and clinics.

Medix is designed for multi speciality hospitals, to cover a wide range of hospital administration and management processes. It is an integrated end-to-end Hospital Management System that provides relevant information across the hospital to support effective decision making for patient care, hospital administration and critical financial accounting, in a seamless flow.

Since the system is automated, it requires very minimum data input with maximum results and data management. Due to its intelligent database, Medix eliminates data redundancy. And more importantly, it is backed by reliable and dependable LBS support.
